SITUATION SUMMARY

Cal OES Activation Status

State Operations Center	Inland Region EOC	Coastal Region EOC	Southern Region EOC
Level 1	Normal Operations	Normal Operations	Normal Operations

Coronavirus Disease 2019 (COVID-19)

The Cal OES State Operations Center (SOC) activated 03/02/20 at 0700 hours in support of the California Department of Public Health (CDPH) Medical Health Coordination Center's (MHCC) statewide response to COVID-19. Cal OES will continue to provide resource coordination for the COVID-19 event, as well as situation status reporting and advance planning across multiple areas.

SMARTER Plan

On February 17th Governor Newsom unveiled the SMARTER Plan as a path forward and the next phase of California's pandemic response. The plan emphasizes continued readiness, awareness and flexibility and helps ensure California can maintain its focus on communities that continue to be disproportionately impacted and stay prepared to swiftly and effectively respond to emerging COVID-19 variants and changing conditions.

WEATHER KEY POINTS

02/26/22 - 03/04/22

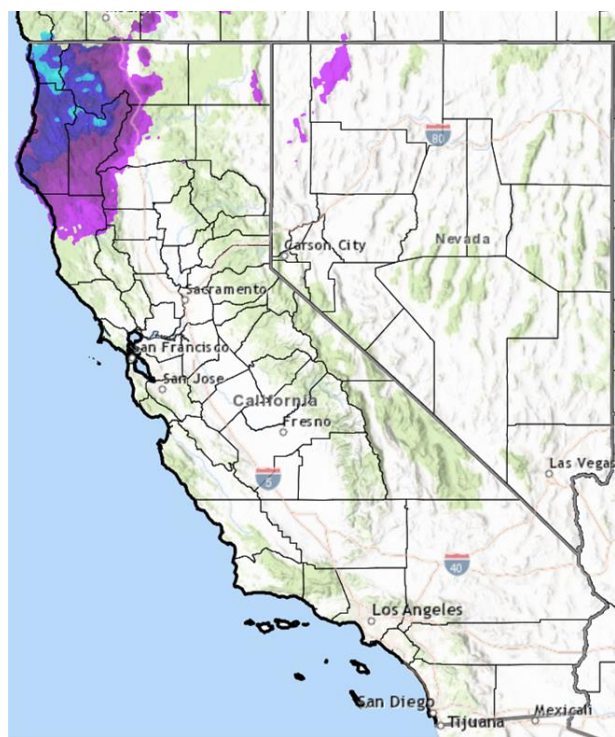

Saturday - Friday

- Gusty offshore Santa Ana winds will persist across the southern California mountains and foothills through Saturday evening, with lighter winds arriving for Sunday and into the middle of next week
- Rounds of higher waves will impact many coastal areas through Saturday night, resulting in an increased risk for rip currents and possibly some minor overwash at times
- Temperatures will see a significant warming trend through the weekend and into much of next week, with some areas across southern California warming back into the 80s by early to mid week
- Dry weather will also continue for many areas of the state through next week, though a few rounds of mainly light precipitation are expected across the northern third of the state through Thursday, including the potential for some light snow accumulation across the northern Sierra

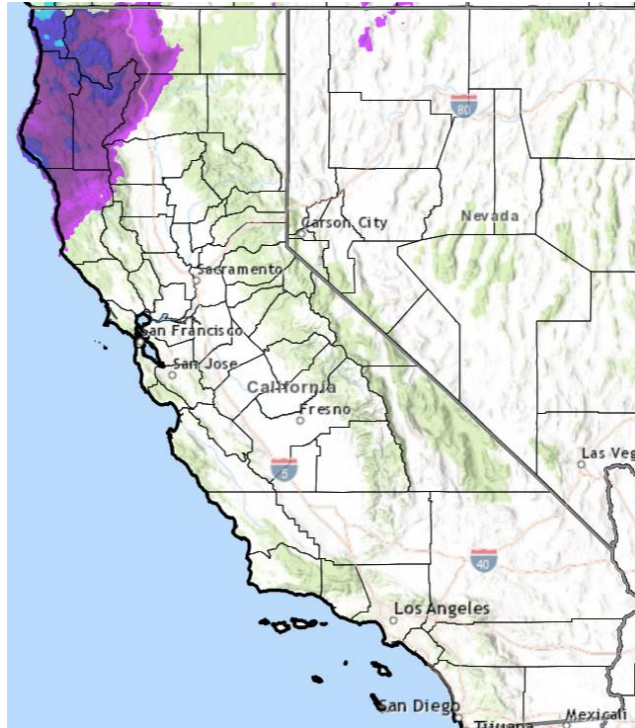

PRECIPITATION FORECAST

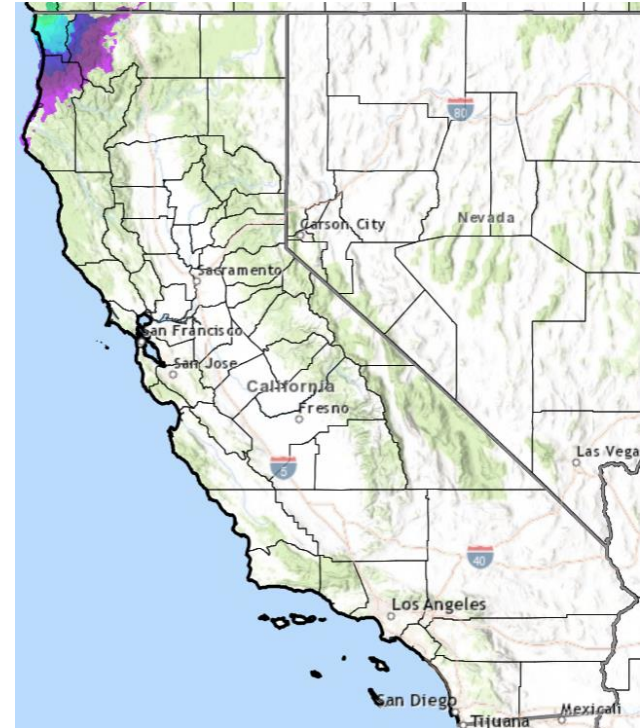

02/26/22 - 02/28/22

Saturday

Sunday

Monday

Note: Forecast precipitation amounts are an average for any particular location. Thunderstorms may produce locally higher rainfall amounts.

Precipitation (inches)

WEATHER OUTLOOK

03/03/22 - 03/11/22

6-10 Day Outlook (March 3 - March 7)

Temperatures

- Below normal temperatures are favored statewide

Precipitation

- Below normal precipitation is favored statewide

8-14 Day Outlook (March 5 – March 11)

Temperatures

- Below normal temperatures are favored to continue statewide

Precipitation

- Below normal precipitation is again favored for the majority of the state
